SUBJECT INDEX

AAS
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Accuracy
High-accuracy thermal analysis of the solid–solid phase transition of lithium sulfate powders 87
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287
Adsorption
On the interaction between ammonia and SAPO-5 277
Ammonia
On the interaction between ammonia and SAPO-5 277
Antioxidant
Antioxidant properties of lignin and its fractions 161
Atmosphere
A computational thermodynamic evaluation of the altitude profiles of $(N_2)_2$, N_2–O_2 and $(O_2)_2$ in the Earth's atmosphere 55
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and gas-saturated liquid crystals up to 270 MPa 169
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S*,*S*′ complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231
On the interaction between ammonia and SAPO-5 277
Auto-oxidation
Antioxidant properties of lignin and its fractions 161
Benzylmalonic acid
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Binary system
Structure of the melts of the systems MF–M_2SO_4, where M is Li, Na, K 79
Application of LM modification of a cubic equation of state for vapor–liquid equilibrium calculations of binary mixtures 297
Blend
Miscibility of poly(vinyl chloride) with terpoly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215
Cadmium compound
Standard enthalpy of formation of diisobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
Calorimeter
A new Calvet-type calorimeter for excess enthalpies 21
Thermokinetic research method for first-order reactions 39
Calorimetry
Standard enthalpy of formation of diisobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
Thermodynamic study of the three isomers of iodobenzoic acid 109
Catalyst
On the interaction between ammonia and SAPO-5 277
Cellulose
Thermal behaviour of cyanoethylated cellulose 257
Chelate
Standard enthalpy of formation of diisobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
Preparation, structural characterisation and

thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Chromium compound
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Cobalt compound
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Common product
Use of databases in the kinetic analysis of two parallel first-order reactions 177
Conductivity
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Determination of thermal conductivities of solids by microcalorimetry 317
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333
Co-ordination
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Copper compound
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Database
Use of databases in the kinetic analysis of two parallel first-order reactions 177
Decomposition
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Thermal decomposition of silver hexacyanoferrates(II) and its analytical application 143
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S,S'* complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
Density
Structure of the melts of the systems $MF–M_2SO_4$, where M is Li, Na, K 79
Desmearing
On the characteristics of the signal curves of heat flux calorimeters in studies of reaction kinetics. Part 1. A contribution to the desmearing technique 7
Dichlorobenzoate
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Dielectric
Energetic characteristics of solvation in the solutions of polar organic compounds 69
Diffusion
ETA–DTA study of mechanically ground gibbsite 337
Dimer
A computational thermodynamic evaluation of the altitude profiles of $(N_2)_2$, $N_2–O_2$ and $(O_2)_2$ in the Earth's atmosphere 55
Complexes of 4-aminopyrimidine and 4-hydroxypyrimidine with water: computed relative thermodynamic stabilities 61
Dipole moment
Energetic characteristics of solvation in the solutions of polar organic compounds 69
Double salt
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
DSC
Antioxidant properties of lignin and its fractions 161
Polymer melting: heating rate effects on DSC melting peaks 203
Miscibility of poly(vinyl chloride) with ter-poly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215

Thermal transitions in surfactant-based lyotropic liquid crystals 239
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287

DTA
Thermodynamic study of the three isomers of iodobenzoic acid 109
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Thermal decomposition of silver hexacyanoferrates(II) and its analytical application 143
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and gas-saturated liquid crystals up to 270 MPa 169
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S*,*S*' complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333
ETA–DTA study of mechanically ground gibbsite 337

DTG
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Thermal decomposition of silver hexacyanoferrates(II) and its analytical application 143
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S*,*S*' complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231

Dye
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49

ETA
ETA–DTA study of mechanically ground gibbsite 337

Ethanol
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1

Eutectic
Structure of the melts of the systems $MF–M_2SO_4$, where M is Li, Na, K 79

Excess molar enthalpy
A new Calvet-type calorimeter for excess enthalpies 21

Film
Thermal oxidation of indium nitride films 307

Gel
Thermal transitions in surfactant-based lyotropic liquid crystals 239

Gibbsite
ETA–DTA study of mechanically ground gibbsite 337

Glass
Determination of thermal conductivities of solids by microcalorimetry 317

Glass transition
Miscibility of poly(vinyl chloride) with terpoly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215

Glycerol
A new Calvet-type calorimeter for excess enthalpies 21

Halide
Thermal decomposition of silver hexacyano-

ferrates(II) and its analytical application 143
HDPE
Polymer melting: heating rate effects on DSC melting peaks 203
Heat capacity
Complexes of 4-aminopyrimidine and 4-hydroxypyrimidine with water: computed relative thermodynamic stabilities 61
Heat of dissociation
Structure of the melts of the systems $MF–M_2SO_4$, where M is Li, Na, K 79
Heat of formation
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1
Standard enthalpy of formation of diisobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
Heating rate
Polymer melting: heating rate effects on DSC melting peaks 203
HTSC
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Hydridation
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225
Hydride
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225
Hydrogen
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225
Hydrogen bond
Energetic characteristics of solvation in the solutions of polar organic compounds 69
Thermodynamic study of the three isomers of iodobenzoic acid 109
Hydrogen peroxide
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1
Hydroperoxide
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193

IC
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Indium
Polymer melting: heating rate effects on DSC melting peaks 203
Indium nitride
Thermal oxidation of indium nitride films 307
Inhibitor
Antioxidant properties of lignin and its fractions 161
Internal energy
Energetic characteristics of solvation in the solutions of polar organic compounds 69
Iodobenzoic acid
Thermodynamic study of the three isomers of iodobenzoic acid 109
Iron compound
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333
IRS
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Isomer
Thermodynamic study of the three isomers of iodobenzoic acid 109

Kinetics
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Antioxidant properties of lignin and its fractions 161
Use of databases in the kinetic analysis of two parallel first-order reactions 177
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287
Knudsen
Thermodynamic study of the three isomers of iodobenzoic acid 109

Lanthanon compound
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Lignin
Antioxidant properties of lignin and its fractions 161
Liquid crystal
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and

gas-saturated liquid crystals up to 270 MPa 169
Thermal transitions in surfactant-based lyotropic liquid crystals 239
Lithium sulphate
High-accuracy thermal analysis of the solid–solid phase transition of lithium sulfate powders 87
Lyotropic
Thermal transitions in surfactant-based lyotropic liquid crystals 239

Melt
Structure of the melts of the systems $MF–M_2SO_4$, where M is Li, Na, K 79
Melting
Polymer melting: heating rate effects on DSC melting peaks 203
Mercury compound
Standard enthalpy of formation of di-isobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
Methanol
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1
Microcalorimetry
Determination of thermal conductivities of solids by microcalorimetry 317
Mixed salt
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Model
A computational thermodynamic evaluation of the altitude profiles of $(N_2)_2$, $N_2–O_2$ and $(O_2)_2$ in the Earth's atmosphere 55
Polymer melting: heating rate effects on DSC melting peaks 203
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287

Nickel
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225
Nickel compound
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Non-isothermal
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193
Novel
A new Calvet-type calorimeter for excess enthalpies 21
Thermokinetic research method for first-order reactions 39
Nucleation
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225

Oxidation
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49
Thermal oxidation of indium nitride films 307

PAL
Use of databases in the kinetic analysis of two parallel first-order reactions 177
pH
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49
Phase
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and gas-saturated liquid crystals up to 270 MPa 169
Miscibility of poly(vinyl chloride) with ter-poly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215
Phase transition
On the characteristics of the signal curves of heat flux calorimeters in studies of reaction kinetics. Part 1. A contribution to the desmearing technique 7
High-accuracy thermal analysis of the solid–solid phase transition of lithium sulfate powders 87
Thermal transitions in surfactant-based lyotropic liquid crystals 239
Plexiglass
Determination of thermal conductivities of solids by microcalorimetry 317
Polyethylene
Determination of thermal conductivities of solids by microcalorimetry 317
Polymer
Polymer melting: heating rate effects on DSC melting peaks 203
Thermal behaviour of cyanoethylated cellulose 257
Powder
High-accuracy thermal analysis of the solid–

solid phase transition of lithium sulfate powders 87
Study of a hydride forming system by thermogravimetry. Hydriding characteristics of $LaNi_5$ mixed with nickel powders 225
Pressure
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and gas-saturated liquid crystals up to 270 MPa 169
PVC
Miscibility of poly(vinyl chloride) with terpoly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215
Pyrolysis
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Thermal behaviour of cyanoethylated cellulose 257
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333

Redox
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49
Reduction
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49
Reliability
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287
Resistance
Thermal oxidation of indium nitride films 307

SAPO-5
On the interaction between ammonia and SAPO-5 277
Saponification
Thermokinetic research method for first-order reactions 39
SEM
Thermal oxidation of indium nitride films 307
Semiconductor
Thermal oxidation of indium nitride films 307
Silver hexacyanoferrate
Thermal decomposition of silver hexacyanoferrates(II) and its analytical application 143
Solubility
Differential thermal analysis (DTA) at high pressures: phase behaviour of pure and gas-saturated liquid crystals up to 270 MPa 169
Solvation
Energetic characteristics of solvation in the solutions of polar organic compounds 69
Stability
Complexes of 4-aminopyrimidine and 4-hydroxypyrimidine with water: computed relative thermodynamic stabilities 61
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135
Thermal behaviour of cyanoethylated cellulose 257
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333
Sulphur dioxide
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1
Superconductor
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Surfactant
Thermal transitions in surfactant-based lyotropic liquid crystals 239

Tautomer
Complexes of 4-aminopyrimidine and 4-hydroxypyrimidine with water: computed relative thermodynamic stabilities 61
Teflon
Determination of thermal conductivities of solids by microcalorimetry 317
Terpolymer
Miscibility of poly(vinyl chloride) with terpoly(α-methylstyrene–acrylonitrile–methyl methacrylate) 215
TG
Preparation, thermal, structural and electrical studies of dichlorohexa (anthranilamide) cobalt(II) and dichloro (anthranilamide) copper(II) 121
Preparation, structural characterisation and thermal analyses studies of the cobalt(II), nickel(II) and copper(II) complexes of benzylmalonic acid 129
Thermal decomposition of rare earth element complexes with 2,5-dichlorobenzoic acid 135

Thermal decomposition of silver hexacyanoferrates(II) and its analytical application 143
Chromium(III) compounds with valine and 2-amino benzoic (anthranilic) acid ligands. Thermal decomposition and kinetic study in air and argon atmosphere 151
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S,S'* complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
Using thermoanalytical data. Part 5. Effect of experimental constraints and data processing on the accuracy of kinetic parameters determined by dynamic thermal analysis 287
Thermal analyses and electrical studies of bis[dicarbonyl(π-cyclopentadienyl)iron(II)] 333
ETA–DTA study of mechanically ground gibbsite 337

TGA
Thermal decomposition of α-tetralyl hydroperoxide under non-isothermal conditions, without solvents 193
Thermal behaviour of cyanoethylated cellulose 257

TG–FTIR
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185

Thermodynamics
Method of obtaining the thermodynamic characteristics of redox behaviour of vat dyes in aqueous media 49
A computational thermodynamic evaluation of the altitude profiles of $(N_2)_2$, N_2–O_2 and $(O_2)_2$ in the Earth's atmosphere 55
Thermodynamic study of the three isomers of iodobenzoic acid 109

TPD
On the interaction between ammonia and SAPO-5 277

Transition
Thermal transitions in surfactant-based lyotropic liquid crystals 239

VLE
Application of LM modification of a cubic equation of state for vapor–liquid equilibrium calculations of binary mixtures 297

Water
Empirical equation for estimation of the enthalpies of formation of crystalline solvates containing water, methanol, ethanol, hydrogen peroxide or sulphur dioxide 1
A new Calvet-type calorimeter for excess enthalpies 21
Complexes of 4-aminopyrimidine and 4-hydroxypyrimidine with water: computed relative thermodynamic stabilities 61
Thermal transitions in surfactant-based lyotropic liquid crystals 239

XRD
Preparation and thermal decomposition of $Y_2(OH)_5NO_3 \cdot 1.5H_2O$ 185
Thermal features and behaviour of 4-aminopyridinium salts of planar inorganic metal(II) 1,2-dithiooxalato-*S,S'* complexes, with formula $(HC_5H_6N_2)_2[M(S_2C_2O_2)_2] \cdot 2H_2O$ (where M is Ni^{II}, Pd^{II} and Pt^{II}) 231
Thermal behaviour of cyanoethylated cellulose 257
Synthesis and thermal investigations of $K_2M(IO_3)_4 \cdot 2H_2O$ where M^{2+} is Co^{2+}, Ni^{2+}, Zn^{2+}. Part 1 267
Thermal oxidation of indium nitride films 307

Zinc compound
Standard enthalpy of formation of diisobutyldithiocarbamate complexes of zinc-group elements and mean M–S bond-dissociation enthalpies 31
